

Dressed Wet

Junior Doctor

He spends another night out way too late
Not cause he wanted to
That's just how you make ends meet
She spends another night out on the town
I mean what else could she do when her man is not around

And she melts over every word
As they roll off his tongue on her
She's in love with how he makes her feel
And a kiss holds her thighs in tight to assure no blue dreams t
onight
She's in love with how he makes her feel
Like she hasn't for so long like once again she's real

he calls her up and says sorry babe
Work kept me out so late, man it sucks that we have to eat
She laughs and says hey baby that's all right
Just be sure to call me back when you think that you'll be home
in five

And she melts over every word
As they roll off his tongue on her
She's in love with how he makes her feel
And a kiss holds her thighs in tight to assure no blue dreams t
onight
She's in love with how he makes her feel
Like she hasn't for so long like once again she's real

She's in she's in love with how he makes her feel like she is s
o alive

He pulls up to the house and wreaks of sweat
She's already there in the bathroom soaking wet
Still dressed she'll rest and when her man walks in she'll say
Baby what you make today
And she melts over every word
As they roll off his tongue on her
She's in love with how he makes her feel
And a kiss holds her thighs in tight to assure no blue dreams t
onight
She's in love, with how he makes her feel
Like she hasn't for so long like once again she's
Once again she's once again she's once again she's real
