

# Hip Hop A Lula

Junior Senior

Let's go  
Hip Hop A Lula, she's just my baby  
Heard it all before, and it's driving me crazed  
Senior, look what I found, just lying in the street  
A little piece of rhyme in the middle of a beat boom  
A take me down to the parallel city  
Where the music is loud and the boys are pretty  
I wanna go, I really wanna go  
But excuse me, honey, I'm late for the show

A break it, break it, break it out girls say  
A break it down boys say  
A break it up girls say  
A break it down yeah

Well you can say we commit the perfect rhyme (crime)  
Looking for a high five moment in time (time)  
Setting high, we've been touch and go  
Cause nobody told us exactly where to go go go  
Hello dolly, pardon my french  
We've been looking for a guy with a monkey wrench  
Hey, just talking trash, into a can  
Armed to a record and then you can dance

A break it, break it, break it out girls say  
A break it down boys say  
A break it up girls say  
A break it down boys say  
A break it up

We've been to tired of the booty shakes  
So pleased to something new cause you keep us awake  
Of ten girls with reckbed behinds  
Giving us the chills up and down our spines  
Don't wanna be polluting the airwaves  
Just send your stockings down the spiral staircase  
We mix it up, music to your thoughts  
Too much good stuff out there to ignore  
Cause there's too much good stuff out there to ignore  
Too much good stuff out there to ignore
