

Ur A Girl

Junior Senior

I know a girl and I know her name
I'd like to know her better
We're hanging out and I'm hanging in
all I can do is try girl

There goes my baby,
down, down the street
she tells me maybe
she wants to meet a little later
But my ears are still ringing
my heart keeps singing
your name when I close my eyes
Woah you're my girl

A little later, later that night you pull a skater,
you rolled into sight
you started dancing
well I don't recall kissing
so howcome I'm missing
the way that you held me tight
Well you're my girl

Oooohhhh
Keep keep keep on rocking
Yeah
Oh, take me down

For the first time alone by our side
we hear the wind chime, some rain fall outside
you move in closer, and the thunder & lightening
you seemed so frightened
but the scariest thing of all
that sure is love,
cuz your a girl
yeah you're my girl
Keep, keep keep keep on rocking
yeah
whooh

Take me, take me
Just take me down to the other side of town
