## Your Life, Your Call

She's over you Boy, you know it's true But you can't stay here You had it coming for years

Pull yourself together Draw the line Pull yourself together Can't stand to see you cry

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

It's over now You've been taking your time But you can't stay here Boy, dry up your tears

Pull yourself together Draw the line

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

Pull yourself together Draw the line Pull yourself together Can't stand to see you cry

No point in looking back Over your shoulder Leave your worries behind For a while You'll forget everything As you get older

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

Stand up, stand up
Stand up or enjoy your fall
It's your life, it's your call
Stand up or enjoy your fall

Pull yourself together Draw the line Pull yourself together Can't stand to see you cry
