She's over you
Boy, you know it's true
But you can't stay here
You had it coming for years

Pull yourself together
Draw the line
Pull yourself together
Can't stand to see you cry

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

It's over now
You've been taking your time
But you can't stay here
Boy, dry up your tears

Pull yourself together Draw the line

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

Pull yourself together
Draw the line
Pull yourself together
Can't stand to see you cry

No point in looking back Over your shoulder Leave your worries behind For a while You'll forget everything As you get older

It's your life, it's your call Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

Stand up, stand up Stand up or enjoy your fall It's your life, it's your call Stand up or enjoy your fall

Pull yourself together Draw the line Pull yourself together Can't stand to see you cry
