

## Moon Won't Turn

Jupiter One

And the moon won't turn  
No matter how hard i stare and the dead won't rise  
No matter how much i love surprises  
The couch won't walk  
And the windows will never talk  
And the moon won't turn

Gravity keeps me from flying to you

And the world won't wait  
Don't bother to check the time and the streets won't burn

No matter how fast we take the turns  
And i can't stop time

The reluctance is in the rhyme  
And the moon won't turn

Gravity keeps me from flying to you  
Gravity keeps me from doing most of the the things i'd  
like to do

In my head we should be falling  
So we walk back up to the beginning and we do it again  
In my bed sometimes i feel like falling  
But it's feet over head  
Six feet over my head
