

## Strange Teacher

Jupiter One

Rainbow, rainbow, doing what you know  
None of us can tell you what to do or when to show  
Sunset, sunset, wipes the rainbow clean  
And makes the loudest noise I've ever seen  
You can turn me into that  
Teacher, teacher, I'm old enough to learn  
You told me that the rainbow never speaks before its turn  
Stranger, stranger, tell me what you see  
When I look in the mirror I see myself so differently  
You can turn me into that  
You return me to another time  
When I was a crewman on a Syrian line  
Once in a while your laugh would reach me across a  
thousand ocean miles
