

## Volcano

Jupiter One

Put my hand on a mountain  
Pulled the top right off  
I made a new volcano roar  
I could never do this before  
Raced back down to the town below  
To try to warn your mom  
I made a new volcano roar  
Just heard static on the intercom  
Get out of the house  
Threw a rock at your window  
Your brother looked to see  
Hey, "I made a new volcano roar,"  
How come no one believes me  
Your father watched from the front porch  
I put my hand to the sky  
"That's where I make your daughter soar,"  
He must have misunderstood me  
Get out of my house  
He told me how his generation won the war  
He asked me what I've done with my life so far  
I didn't answer quick so he shut the door
