

# I Love My Life

Justice Crew

I got a drink in my hand, and my homies do too  
The vibe is in the air, I feel it  
And all I know is these girls look good,  
They're nice, young, I can't believe it  
I love my life

I love my life  
I love my life

As long as she's wearing the sun dress,  
and she smiles when I tell her Hello!  
Yeah!  
As long as my whips goes fast  
and there's a little bit of hey in my coke  
Hell yeah, I guess I can't really complain  
Hell yeah, as long as I can say

I got a drink in my hand, and my homies do too  
The vibe is in the air, I feel it  
And all I know is these girls look good,  
They're nice, young, I can't believe it  
I love my life

I love my life  
I love my life

It's doesn't take too much to please me,  
It doesn't take too much at all  
As long as my beat down low,  
and my homies pick up when I call  
Hell yeah, I guess I can't really complain  
Hell yeah, as long as I can say

I got a drink in my hand, and my homies do too  
The vibe is in the air, I feel it  
And all I know is these girls look good,  
They're nice, young, I can't believe it  
I love my life

I love my life  
I love my life

No need for an early night,  
Even though I've got another early flight  
'Cause we've got the nine to five, and the vibe tonight  
Is feeling right on spot  
We might be fading, I'm faded  
Don't got problems, ain't complaining  
We're alive, and that's great  
Yeah, I'm just saying that I love my life

I got a drink in my hand, and my homies do too  
The vibe is in the air, I feel it  
And all I know is these girls look good,  
They're nice, young, I can't believe it  
I love my life

I love my life  
I love my life
