

## Pointing Fingers

Justifide

Stop lecturing me, I've had enough of your advice  
For a lifetime, this lifetime, Pharisee!  
I won't think twice, I see your intentions, and I'll call you o  
ut cuz  
I said I'll call you out cuz

Cuz I don't care what you think of me, I don't care  
And I don't care, my Father, he knows me well

No more, no more, no more pointing fingers

To take that spotlight off yourself, cuz your sin still lingers  
Enough of making others feel less than you, that's all you do  
Man, what am I left to do but call you out, but you won't list  
en, better think this through  
I wanna take that blindfold from your eyes  
But you gotta take that blindfold off your eyes  
Please, I wanna take that blindfold from your eyes  
Believe me, you ain't seen nothing, you've been living blind  
And I pray they'll see Your grace someday, someday  
May Your grace shine on me  
May Your grace shine through me  
You're everything I want to be and only you can set me free  
And I don't care what you think about me, cuz my Father knows m  
e  
And I will be whoever He wants me to be
