

Sweet New Found Joy

Justifide

Well, the people have been searchin' before
God sent his son knockin' at the front door
Bringin', bringin' hope and happiness to all

He said, follow me and I will be you'll see
The one that will give you love for eternity
Now all you got to do is believe in me

Sweet new found joy, the love he gave to you and me
Sweet new found joy, that's what I have inside of me

Well, we're livin' it up, we're givin' it up, we're breakin' it
down
We're breakin' it up, now choose what side your playin' on
We got to stand up for what we believe
We got to end all this negativity, yeah

So where is all the love anymore?
Where is the open hand from next door?
Don't you see what we're missing
The love of Jesus, oh, yes we need?
