Forever And Always

Justin Garner

(Verse)
You were like baby got my heart on a string
Pull it up and back and look at me
You love it, I'm bad yea
You know it, you got me
You are, you're the only woman complete

(Pre-Chorus)
Live fast, die young
Long as you're here with me
Til the end of the world I'll stand in here to the
Til the walls come falling down
I'll still be around
And the skies open tonight
Angels coming down

(Chorus)
Forever and always
I will be here with you
Forever and always
Will my heart be touching you
With you, you
With you, you
Forever and always

(Verse)
Love me now, can you love me now right here?
Have no fear
No worries, we're the only ones right here
I love it, I need it
You love me, committed
Be the one, can nobody break that yes

(Pre-Chorus)
We're gonna live fast, die young
Long as you're here with me
Til the end of the world I'll stand in here to the
Til the walls come falling down
I'll still be around
And the skies open tonight
Angels coming down

(Chorus)
Forever and always
I will be here with you
Forever and always
Will my heart be touching you
With you, you
With you, you
Forever

(Bridge)
Til the walls come falling down
I'll still be around
And the skies open tonight
Angels coming down

(Chorus)
Forever and always
I will be here with you
Forever and always
Will my heart be touching you
With you, you
With you, you
Forever and always
