

# Forever

Justin Garner

Let's go  
I can dance with you for ever  
Let the music take you higher  
She is just my type  
Grooving all night

I'll be fine  
We got to leave tonight  
I'm not gonna be alone  
I can make you say  
Shorty I don't wanna be alone  
Cause my eyes... how she shines  
Her smile lights my soul inside

Let's go  
I can dance with you for ever  
Let the music take you higher  
She is just my type  
Grooving all night

Troll troll all on me  
Bet that I can make you see  
Stars tonight  
... how you got me out of control  
Cause my eyes... how you shines  
Your smile lights my soul inside

You're just my type  
Just what I like  
Won't you be the girls in my life

Let's go  
I can dance with you for ever  
We can dance forever  
Make love forever  
Keep you forever  
There ain't no other  
That I can love forever

Let's go  
I can dance with you for ever  
Let the music take you higher
