

# If You Fall

Justin Garner

(Verse)

Wake in the morning, lay next to your face  
I like you, I like you  
And I'd want you to know that the world is ours  
I'd like to, I'd like to

(Bridge)

Kiss your hand, say you're the one  
Will you marry me? We're wild and free  
How nice and other mornings  
When the sun rises, you that I'm waiting for

(Chorus)

You'll be the princess, I'll be the king of this throne  
We can make endless love, all night long  
I'll catch you when you fall  
When you fall, when you fall yea  
When you fall, when you fall  
I'll catch you when you fall  
If you fall

(Verse)

Hard nights when you're lonely  
I'll be there  
Right next to you, always for you  
When you're feeling weak and you need someone to help you through it  
I'll be there, anything for you

(Bridge)

Kiss your hand, say you're the one  
Will you marry me? We're wild and free  
How nice and other mornings  
When the sun rises, you that I'm waiting for

(Chorus)

You'll be the princess, I'll be the king of this throne  
We can make endless love, all night long  
I'll catch you when you fall (catch you when you fall)  
When you fall, when you fall yea  
When you fall, when you fall  
I'll catch you when you fall  
If you fall

My word to you is that I'll  
I'll never change  
Make you a priority baby  
You deserve the same love that you gave me  
You showed me what is love

(Chorus)

You'll be the princess, I'll be the king of this throne  
We can make endless love, all night long  
I'll catch you when you fall  
When you fall, when you fall yea  
When you fall, when you fall  
When you fall  
If you fall
