

# Runaway

Justin Garner

Aiy aiy aiy... aiy  
Looking at the door waiting on your loving, shawty come home  
Got me bugging since you left that at home  
All I can think about it that call that set it off  
Never should have yelled at you, never should have left my boo  
Never should have got at her, know I was wrong

Cause I would take back all that I messed up  
All That I messed up (4x)  
And I want you to be right here next to me  
Right here next to me (4x)  
I won't let you runaway, can't let you runaway  
I won't let you runaway, can't let you runaway  
I just wanna finished what we started  
Baby since you got me here up and started  
Away, don't runaway, away, don't run away

(Don't runaway)  
You don't reply my text  
You got me missin reminiscing about our sex  
I done messed up  
Now you're my ex  
I admit I feel I'll, I'll, I'll

Cause I would take back all That I messed up  
All That I messed up (4x)  
And I want you to be right here next to me  
Right here next to me (4x)  
And I want you to be right here next to me  
Right here next to me (4x)  
I won't let you runaway, can't let you runaway  
I won't let you runaway, can't let you runaway  
I just wanna finished what we started  
Baby since you got me here up and started  
Away, don't runaway, away, don't run away

(Don't runaway)  
Never though that I would be in the position that we're in now  
Never seeing you again  
No don't runaway, don't leave me  
No don't runaway, don't keep me waiting noo~  
And I would take back all that I messed up, yeahh~  
And I want you to be right here next to me, Ohhh~ Yeah yeah

I just wanna finished what we started  
Baby since you got me here up and started  
Hey don't runaway don't runaway from me
