

Something To Remember

Justin Garner

All you left was a
Polaroid picture
Sitting on my dresser, yea

Do you remember?
I can't await December
Do you remember?

It was cold outside
But I kept you warm
Our love was on fire

Now our love will go no
All I know
Never saying goodbye

(Chorus)
Give me something to remember
All you had to do was say you missed us
I promised I would do anything for you
Something to remember
Something to remember you
Something to remember

You left my heart bleeding
Til the blood falls
That's how it hurt, you know?

I wouldn't wish, just paint on my words in the mirror
'Cus girl all I know
Feels like I died all over

When the rain falls
Reminds me of darkness falling from your eyes
Eyes...

I once had it all
All that was you
Now I'm so broke, it's lost at all

(Chorus)
Give me something to remember
All you had to do was say you missed us
I promised I would do anything for you
Something to remember
Something to remember you
Something to remember

Tell me
Will I?
See you again
Oh baby

Tell me
If I'll
Love again
Yea

(Chorus)
Give me something to remember
All you had to do was say you missed us
I promised I would do anything for you
Something to remember
Something to remember you
Something to remember

Something to remember
