

Straight For Your Heart

Justin Garner

Baby, tell me why your heart break
I tried to be the best, gave you all I had
Tell me...

And why'd you walk away
Hearts don't seem like they could break even
Every little piece hanging on to me
Baby...

I'll dry your eyes
If you stay tonight

(Chorus)
Straight for your heart
Coming at the speed of light
Baby if you feel the way I do, let's go
Straight for your heart
Baby if you feel the way I do, let's go
And I'm coming straight for your heart

Let's make love and I'd want no pain
Even through the worse, yea I know it hurts
I know...

But don't give up
On this thing that we have
On love
I tried to be the best
Damn thing that will ever have

I told you that I'd dry your eyes
But you gotta stay tonight

(Chorus)
Straight for your heart
Coming at the speed of light
Baby if you feel the way I do, let's go
Straight for your heart
Baby if you feel the way I do, let's go
And I'm coming straight for your heart

Til we grow old, til time don't exist no more
Our love is gold
And if you may leave before I do
I know that I'd be there with you soon

Straight for your heart
Baby if you feel the way I do, let's go
Straight for your heart
Tell me, do you feel the way I do? Let's go
And I'm coming straight for your heart
