Face In The Crowd

Justin Hayward

Life is a struggle Baby you got to choose Hear the call of the wild wind What have you got to lose So take off that coat And kick off those crazy shoes I can see by your smile that you're ready Well, I'm ready too Oh, life is a puzzle Baby you've got to try But don't let it get you And don't let it pass you by 'cause here and now darling Here and now you got me And something inside me Tells me it's meant to be Will it be alright I'm getting a message From someone Will it turn out right It's not just a face in the crowd It's not just a face in the crowd Face in the crowd Will it be alright I'm getting a message From someone Will it turn out right It's not just a face in the crowd It's not just a face in the crowd Face in the crowd Life is a struggle Baby you got to choose Hear the call of the wild wind What have you got to lose So take off that coat And kick off those crazy shoes I can see by your smile that you're ready Well, I'm ready too So just close your eyes I'm getting a message From someone Through a clear blue sky It's not just a face in the crowd It's not just a face in the crowd Face in the crowd
