## Silverbird

## **Justin Hayward**

I can understand The rain that falls Waves that crash upon the shore And I know that everyone Must have freedom today And baby in my dreams I see I see you walking away I can understand the moon and stars (understand moon and stars) Wonders of this world of ours (wondrous world of ours) And I see the fire of life Burning brighter each day And baby in my dreams I see I see you walking away (walking away) So far away (so far away) I see you walking away (walking away) So fly, my silverbird (fly silverbird) You know that I Am waiting for you And everywhere you go I'm with you still (fly silverbird) I know you will Return someday And through the rain and the snow (and the snow) When there's nowhere left to go I hope you'll stay Oh darling, now I understand And I'm home to stay When I close my eyes, I see you there (close my eyes, see you there) In everyone and everywhere (everyone, everywhere) And I feel the power of love Like an ocean today And baby in my dreams I see I see you walking away (walking away) So far away (so far away) I see you walking away (walking away) So fly, my silverbird (fly silverbird) You know that I Am waiting for you And everywhere you go I'm with you still (fly Silverbird) I know you will Return someday And through the rain and the snow

(and the snow) When there's nowhere left to go I hope you'll stay Oh darling, now I understand And I'm home to stay So fly, my silverbird (fly silverbird) You know that I Am waiting for you And everywhere you go I'm with you still (fly silverbird) I know you will Return someday And through the rain and the snow (and the snow) When there's nowhere left to go I hope you'll stay Oh darling, now I understand And I'm home to stay And through the rain and the snow (and the snow) When there's nowhere left to go I hope you'll stay Oh darling, now I understand And I'm home to stay (oh, oh, oh my silverbird, come on home to stay)
