

The Way Of The World

Justin Hayward

I took a walk
Down by the prison wall
I didn't know
I couldn't see
The side of the wall
I needed to be
Looked at the sky
Looked at the clouds
Still rolling by
Worshipped the sun
Giving it's life
To everyone
Yeah...I watched the clouds roll by
'Cos we are all equal underneath the sun

That's the way...
That's the way of the world
The way of the world
That's the way...
That's the way of the world

I took a ride
Over the ocean wide
I didn't know
I couldn't see
Who I could trust
Or who trusted me
I travelled the earth
Trying to find
The good and the kind
I had to choose
If I should win
Or if I should lose
Yeah...I had to choose the way
'Cos we are all equal underneath the sun

That's the way...
That's the way of the world
The way of the world
That's the way...
That's the way of the world
The way of the world
That's the way...
That's the way of the world
