

# Off the Beaten Path

Justin Moore

Here ya go honey yeah here's some Patron  
You better sip it slow, it's bad to the bone  
Don't want you gettin' too far gone  
And I have to tote ya out of here roll you on home  
Keep on shaking that money maker  
They're just jealous just bunch of haters  
The rest of this night's gonna be what we make it  
There's some wild in that smile baby what you say we take it

Off the beaten path  
One foot on the dash and one on the floorboard  
Off the beaten path  
Country rock crankin' through speakers in the four door  
Silverado baby do you wanna go  
Out where the good love grows  
Off the beaten path, yeah

I could sit right here and watch you dance all night  
'Til the sun comes up 'til they turn out the lights  
That drunk son of a buck's 'bout to have him a fight  
If he don't watch his step he'll get a left then a right  
What you mean you never sat in a jacked up truck  
Well I'll be damned girl you're in luck  
There's a little spot out there I'd like to show ya  
By the light of the radio I'd like to get to get to know ya

Off the beaten path  
One foot on the dash and one on the floorboard  
Off the beaten path  
Country rock crankin' through speakers in the four door  
Silverado baby do you wanna go  
Out where the good love grows  
Off the beaten path, yeah

Like a deep groove country song baby  
I wanna turn you on, yeah

Off the beaten path  
One foot on the dash and one on the floorboard  
Off the beaten path  
Country rock crankin' through speakers in the four door  
Silverado baby do you wanna go  
Out where the good love grows  
Off the beaten path, yeah

Off the beaten path

Baby let me take ya  
Baby let me take ya

Baby let me take ya  
Off the beaten path
