

# That's How I Know You Love Me

Justin Moore

I remember back when I'd go places  
a desperate wind wouldn't even blow,  
I ran with the outskirts crowd loud  
and proud, burnin' up the road.  
Pourin' whiskey on the fire  
Spinnin' tires and never hit the brakes.  
'Cause that just means you're weak

But you,  
You never tried to change me  
You just tried to save me  
And you, you found a way to trust me  
Despite the broken pieces of me,  
That's how I know you love me  
That's how I know you love me

Every man tries to stand tall  
Never fall or let love knock him down  
Run on through the night  
Shootin' out the lights on the heartless  
Side of town  
Tonight here in the dark I'll hold ya  
in my arms and never let you go.  
While you kiss away the ghosts

Yeah you, you never tried to change me  
You just tried to save me  
And you, you found a way to trust me  
Despite the broken pieces of me,  
That's how I know you love me  
That's how I know you love me

Yeah, you never tried to break me  
You just found a way to wake me  
And you, you found a way to trust me  
Despite the broken pieces of me  
That's how I know you love me  
That's how I know you love me

Yeah, how I know you love me  
Yeah, that's how I know you love me baby  
Ohh yeah yeah
