

Be Back Soon

Justin Nozuka

I'm tired of getting postcards and
Tired of paying long distance bills (baby be back soon)
I'm tired of dreaming of sex and
Tired of not being able to show my skills (baby be back soon)

Over and over I hear you in the halls
Over and over I wake up with my pillows in my arms
Oh baby when you coming home
A day without you is a day without the sun

I've been missing out on your love and your shadows
And I can't wait much longer babe, without you near I'm going c
razy
Be back, be back, be back soon

I'm tired of walking alone and
Tired of seeing happy couples walking by (baby be back soon)
I'm tired of making reservations at our favorite restaurant for
just momma and me (baby be back soon)

Over and over I hear you in my head
Over and over I wake up with you not in my bed
Oh baby when you coming home
A day without you is a day without the sun

It's killing me, killing me
How I can't get no love without our combination
Killing me, killing me how I get so choked up with every conver
sation
Killing me, killing me how I'm left in the rain, while you are
on vacation
Baby please let me know when you're coming home
And I will meet you at the airport station (3x)
Baby when you coming back
