

Blue Velvet Sea

Justin Nozuka

It happened one warm summer night
The wind and rain collided right
Below the stars and fell all over me

I saw it all before my eyes
How she used the grey to twist the sky
And the flash of light to cut the running sea

And on top of the hill where god sits on his throne
A gentle giant wave appeared and took him down below

Take me on

As the wave came close I tried to flee
But it swept me right off my feet
And a gentle touch pulled me down below

There were dolphins dancing everywhere

And mermaids with red glowing hair
And god shone on his throne like the sun

Passing wisdom trees filled with golden leaves
I could feel the warmth of a perfect melody

Take me on

Blue Velvet Sea

Overhead twelve fairies flew
And lit the sky green, red and blue
And the stars rearranged just for you

Take me on
