

## I'm In Peace

Justin Nozuka

It always occurs to me, how lovely you look today  
Just how you smile that way, makes my heart melt  
Seemed like just yesterday, when you stole my breath away  
You walked into my life, you completed my soul  
When you walked into my life, you completed my soul

I'm in peace,  
I'm in peace,  
I'm in peace when I am with you  
You set me free; you're all I need,  
Lift me off my feet, beauty queen

Where did you find that soul of yours  
You must have traveled through heaven, and searched through the  
garden of love  
I swear there's a light, when your eyes touch me  
It's like the sun reaching down from the sky  
When you touch me with your eyes,  
it's like the sun from the sky

Your whispering,  
it's uplifting,  
Sink into my body while I'm drifting  
When you kiss me, really truly kiss me  
Connected by our hearts, we are one
