I know you're watching me Hey boy, come on and take me now Can I talk to you for a minute You've been looking all night for your shining star Well baby here I am, so why you waiting? Step on over, let me show you how bad you are Just let me take the lead All you gotta do is let your mind be free Lets hit the floor and cause a scene Get real wet if you know what I mean What you say baby? (And she said) Take me now I'm hungry for your loving (And she said) Show me how You got me working, honey (And she said) Right now I'm hot just like an oven (And she said) So take me now Boy you make me feel like I gotta dance I gotta dance, gotta dance baby, I gotta dance...
