

# Drink You Away

Justin Timberlake

Bitter sweet thing.  
Could this be a dream  
Or just the same nightmare that keeps me awake?  
Feel it in my brain.  
A tall shot of pain.  
Pour a little up now for the love that we've made.

I feel it in the morning.  
You're still here in the morning.  
I see you but you're gone  
Telephone a doctor: I'm not okay.  
The bottom of the bottle  
To fill this empty heart up.  
A thousand proof  
Don't change the truth.  
I tried it but I can't.

I can't drink you away.  
I've tried Jack, I've tried Jim,  
I've tried all of their friends.  
But I can't drink you away.  
All these rocks-I can't swim  
Out of this skin  
I'm living in.  
Say

Now tell me, baby, don't they make a medicine for heart break, ooh?  
Tell me, baby, oh, yeah, now don't they make a medicine for heart break?

Got a pounding on my brain.  
So I drowned it away.  
When the sun comes up tomorrow you can find me doing the same.  
'Cause I just can't forget  
The way we turned out this bad/bed.  
And now the only thing that sleeps here is a ghost of you instead.

And then I feel it in the morning.  
You're still here in the morning.  
I see you but you're gone.  
Telephone a doctor: I'm not okay.  
Bottom of the bottle  
To fill this empty heart up.  
A thousand proof  
Don't change the truth.  
I tried it but I can't.

I can't drink you away.  
I've tried Jack, I've tried Jim,  
I've tried all of their friends.  
But I can't drink you away (no, I can't).  
All these rocks-I can't swim  
Out of this skin  
I'm living in.  
Say

Tell me, baby, don't they make a medicine for heart break?  
Oh, tell me, baby, one time, come on, don't they make a medicine for heart b

reak?

Break it down

I can't drink you. No, I can't drink you away, away.  
I can't drink you. I can't drink you away, away.  
I can't drink you. I can't drink you away, away.  
Oh, I can't drink you. No, I can't drink you away, away.

I can't drink you away.  
I've tried Jack, I've tried Jim,  
I've tried all of their friends.  
But I can't drink you away.  
All these rocks-I can't swim  
Out of this skin  
I'm living in.  
Say

So tell me, baby, don't they make a medicine for heart break (don't they, do  
n't they, tell me, baby)?  
Oh, tell me baby, one time, don't they make a medicine for heart break, yeah  
?

Tell me, baby, can't they make a medicine for my heart break, heart break?  
Tell me, baby, yeah, can't they make a medicine for my heart break?

'Cause I can't drink you away.  
I've tried Jack, I've tried Jim,  
I've tried all of their friends.  
I can't drink you away.  
All these rocks-I can't swim  
Out of this skin  
I'm living in.
