

Why, When, How

Justin Timberlake

Do
Do do do doooooo
Dooo doooo
Oooo
Mmmmm

You're still captivating
Even though it's been so long
You used to love me
Tell me baby what went wrong
'cause now you march to a beat of a different song
I try to understand that we needed space
But everywhere i turn I see your face
And I've been wating for you to come home
'cause i don't want to be alone
Still Love you

Why did you take away your love
When did you think to just give up
How am i suppose to carry on now
With you
You were my life

I have changed girl since i last saw you
When you left you don't know what you put me through
But my heart still racing just being next to you
I can't escape the magic in your eyes
Is there a way to make you realize
There is no one more special to my heart
But you want us to be apart
Still Love

Why did you take away your love
When did you think to just give up
How am i suppose to carry on now
With you

You were my world
You ment everything to me
Your the air i breathe,
The song I sing
You were my queen
I was your King
But if we can try to work it out
We'll show the world what love is about

Baby come home
'cause I can't no more
Of this loneliness and emptiness

Why did you take away your love
When did you think to just give up
How am i suppose to carry on now
Without you

Why did you take away your love
When did you think to just give up

How am I suppose to carry on
Without you
You were my life
