

# The Whippgrass

Justin Vernon

Lay low little babe  
You're still my precious child  
You're all old and grown now  
But you're still the same inside

Standin' on the whippgrass  
Standin' on the whippgrass  
Sittin' on the whippgrass  
Watch and see how we last

You're not alone tonight, babe  
You're not so far from your home  
You got the strength of all us, babe  
I give a prayer unknown(?)

Sittin' on the whippgrass  
Sittin' on the whippgrass  
Just sittin' on the whippgrass  
I'm so full  
and this is so vast

I know we'll all be together, babe  
Someday, somehow  
Carry to a higher bound, babe  
It's not a sight or a sound

Smokin' around  
It's within me somehow  
I'll carry to what I am bound  
The truth that I have found

Standin' on the whippgrass  
It moves along the whippgrass  
It moves along the whippgrass  
It moves along the whippgrass  
It moves along the whippgrass  
It moves along the whippgrass  
See how it lasts
