

# Toast To The Good Life

Juvenile

It's a celebration I didn't made it past 21 feeling like a top gun  
I'm still standing above the ground, you know it's going down  
My family good, my people stroot, just shob is a motherfucker obligate  
Make a toast to the good life, make a toast to the good life.

Man, I swear I be like the robot,  
Programmed to get money and stop only when I run out  
Models on the table in case a nigga get thirsty  
Models by the table feel like five years Thursday  
I'm a fly nigga, I know what you like, women  
I'm on my Louis Vuiton burgen, it's quite leaning  
They say my snigger here in his thirty till the life's finished  
I tell them big 'cause I'm a classic, I like tennis  
Jordon, burdon, juby, you can say the rest  
Burn down the novelty minus the big in that  
No swine as the alcohol in grand that  
Looking for that clean pussy that no other man has  
I come to sort the game up, I'm tearing it  
Forget the man with the suit, you're about to learn it  
I'm on my green like a God force and I'm celebrating, let's start it off with a shot toast.

It's a celebration I didn't made it past 21 feeling like a top gun  
I'm still standing above the ground, you know it's going down  
My family good, my people stroot, just shob is a motherfucker obligate  
Make a toast to the good life, make a toast to the good life.

All I do is wash money in my main time  
Is better say I got a new at least I lay swag  
Feeling good, my people just got released home  
I need to rap when I'm telling about this threesome  
Just money, black cards chris honeys  
Make everybody gather alone but you risk none  
Prick runners, that's what I came up around  
But ask a nigga some, nigga tear your wheel for the run  
Big stonner, cardiac clean the leans  
I spend the summer in a Hummer when I'm in the bends  
Still rolling, even after the wheel stops  
Fuck jill and drop it down at the hill top.  
I be shaping the sex, I'm in the lean up  
Small in the stomach and I ain't even did a sit up  
Nino, I'll be doing me in this golf curse  
And I celebrate, let's start it up with a shot toast.

It's a celebration I didn't made it past 21 feeling like a top gun  
I'm still standing above the ground, you know it's going down  
My family good, my people stroot, just shob is a motherfucker obligate  
Make a toast to the good life, make a toast to the good life. (bis)

And it feels so good, God damn it, it feels so good, man  
I'm out to rearrange my motherfucker shit, man
