

Hello Darlin'

K-Ci & JoJo

Wish that I could have you in my space
Wish that I could kiss and caress your face
How is it that I love you and I don't even know U
Did you plant a seed inside of me, when you said hello
Hello darlin, hello sweetheart
She said I'm lost and I don't know my way around
Hello darlin, hello sweetheart
Can U please show me which way to go
She said please show me which way to go
If I changed my look would I have a chance
Or is that I'm used to only one night stands
My idea of romance was nothing more than a kiss in the wind
Never could understand anything about love
Till she said hello
Hello darlin, hello sweetheart
She said I'm lost and I don't know my way around
Hello darlin, hello sweetheart
Can you please show me which way to go
She said please show me which to go
Notice me right before your eyes
Wanting you hidden love by surprise
Left undone and I can't give up until were one
