

## Hello Darlin'

K-Ci & JoJo

Wish that I could have you in my space  
Wish that I could kiss and caress your face  
How is it that I love you and I don't even know U  
Did you plant a seed inside of me, when you said hello  
Hello darlin, hello sweetheart  
She said I'm lost and I don't know my way around  
Hello darlin, hello sweetheart  
Can U please show me which way to go  
She said please show me which way to go  
If I changed my look would I have a chance  
Or is that I'm used to only one night stands  
My idea of romance was nothing more than a kiss in the wind  
Never could understand anything about love  
Till she said hello  
Hello darlin, hello sweetheart  
She said I'm lost and I don't know my way around  
Hello darlin, hello sweetheart  
Can you please show me which way to go  
She said please show me which to go  
Notice me right before your eyes  
Wanting you hidden love by surprise  
Left undone and I can't give up until were one
