

If It's Going To Work

K-Ci & JoJo

I'm tellin' the truth
You don't believe a word
How can we start over again?
I know I lied
You said let's try
But still you won't let me in
Girl it's easy to confess
When the truth's been revealed
And it's easy not to believe a word that I am saying

So baby if you want me (If you really want me)
And baby if you need me
You gotta let me know with us there's still a chance
(You gotta let me know)
You gotta put the past behind us and start all over again
I got to know If It's Going To Work

When circumstances don't seem right
Why can't you just go on with the fact
Not what you hear, but what you know
You want to believe the bad
After we work it out
Why do you bring it up again?
I know it's gonna be so hard
But we've got to start somewhere

I never loved no one like you
Never, never, never, never, never baby
It doesn't matter who you think you we're before
I'm tryin' real hard, yes I am
To bring back the trust
If we don't bring it back
There's gonna be no more us

Yea, yea, yea, yea, yea
Baby baby
Ooh yea,
Can I get a witness?
Shoo doo doo doo
It's gonna be alright
Can I get a witness?
I said let me know, and I need to know
I gotta know right now baby... ooh
