

## Angel With A Lariat

k.d. lang

Angel, angel from the sky  
Came right down to sit beside  
This lonely achin' heart of mine  
That now, folks, feels sublime

Now I'm a walkin', talkin' and a spinnin'  
I can't keep my face from grinnin'  
Things are roarin', soarin', oh what a feelin'  
And to think it's just beginnin'

Angel with a lariat  
Carry me home, sweet chariot  
With you

Angel, toss your rope around  
Yank me up from the ground  
Sound the trumpets, send a hue  
Ascending angels through the blue

I feel emancipation, no, I don't worry  
Set my bugaboos down to worry  
There's no aggravation, there's no worry  
For I have found a true love surely

Angel with a lariat  
Carry me home, sweet chariot  
With you

Angel with a lariat  
Carry me home, sweet chariot  
With you, yeah, with you  
Angel
