Angel, angel from the sky
Came right down to sit beside
This lonely achin' heart of mine
That now, folks, feels sublime

Now I'm a walkin', talkin' and a spinnin'
I can't keep my face from grinnin'
Things are roarin', soarin', oh what a feelin'
And to think it's just beginnin'

Angel with a lariat Carry me home, sweet chariot With you

Angel, toss your rope around Yank me up from the ground Sound the trumpets, send a hue Ascending angels through the blue

I feel emancipation, no, I don't worry Set my bugaboos down to worry There's no aggravation, there's no worry For I have found a true love surely

Angel with a lariat Carry me home, sweet chariot With you

Angel with a lariat Carry me home, sweet chariot With you, yeah, with you Angel
