## Love Is Like A Cigarette

What is love You called it heaven above Star that shine in the night A bird that sings in its flight A flower that blooms in the spring There's no such thing

Love's like a cigarette You know you had my heart aglow Between your fingertips And just like a cigarette I never knew the thrill of life Until you touched my lips Then just like a cigarette Love seem to fade away and leave behind ashes of regret And with a flick of your fingertips It was easy for you to forget Coz love is like a cigarette

Then just like a cigarette Love seem to fade away and leave behind ashes of regret And with a flick of your fingertips It was easy for you to forget Coz love is like a cigarette
