

Once In A While

k.d. lang

Then love comes waltzing in
And gives my head a spin
With the unsuspecting one
Whose world turns upside down
Shattering the ground other expectations

Love beyond reason
Is a love so hard to find
And love it can season you
Make your heart a one track mind

I will make you happy, baby
I will make you smile
I'll drive you crazy, baby
Once in a while, once in a while

Love beyond reason
Is a love so hard to find
Love it can season you
Make your heart a one track mind

I will make you happy, baby
I will make you smile
I will drive you crazy, baby
Once in a while, maybe once in a while, once in a while
