

Moving On

K'jon

It was once said to me that the things the I created where never intended for my possession.

So I said to myself this to shall pass. So I had to move on.

[Verse 1:]

Sometimes we get stuck like a tire in some mud, and we cant get up (seems like we can't get get up).

Sometimes we fall down when nobody's around to help us up (to help us up).

There's a voice in our heads when you're think you're dead that says get up (get up get up get up).

It's the will to survive and the fight that's still alive (alive) and all the so I said.

[Chorus:]

Time for me for me to get going and I wont let nobody hold me I 'm moving on.

Cause my will so strong. Everyday is a lesson every night I count my blessings I'm moving on.

Cause my will so strong. I'll be moving on.

[Verse 2:]

I don't know what time I gotta go, all I know is soon (and real soon).

And trouble may find me not at home. Just an empty room (just an empty room).

So I'm leaving it behind (it behind). Hope that it don't find.

Hope that it don't find me ever again.

It just gotta be some kind of way (Form of silver lining).....it just gotta be cause its my time.

[Chorus:]

Time for me for me to get going and I wont let nobody hold me I 'm moving on.

Cause my will so strong. Everyday is a lesson every night I count my blessings I'm moving on.

Cause my will so strong. I'll be moving on.

[Break:]

I been down on my knuckles (on my knuckles).....and I been around in circles (round in circles).

It seems like its about to burn (its about to burn). Like every thing is over (Its over).

i just cant give up now (never) nothing cant stop me (never). Hold On (9x)

[Chorus:]

Time for me for me to get going and I wont let nobody hold me I

'm moving on.

Cause my will so strong. Everyday is a lesson every night I count my blessings I'm moving on.

Cause my will so strong. I'll be moving on.
