

# Maybe I Should Call

K. Michelle

Long distance in the way of what could be,  
Even when your here you're not wit me  
She's having the child as you do carry it  
I'll be dammed if you get married  
House up there be how you ajust it  
Ain't gon' work you got problems trusting  
Let me know I'm supposed to be focused  
But these nights are the coldest  
Will you ever let it go? I don't know  
Will I ever be first? I hope  
But I ain't just sitting around  
Can't wait for someone who's singing my words  
Damn I can't compete with a baby  
Is there any room left in your heart for me?

I love him, I love him, I love him  
Maybe I should call  
Maybe I should call  
I love him, I love him, I love him  
But I'll never call  
Maybe that's for love

Maybe that's why I ain't got a man  
Cause I be too in too much thinking  
Tryna compensate for your absence  
But no drug can't take where you  
Try to know try just want you where I am  
1000 of them just one him  
Drowning in along my excuses  
Hardest and him useless, probably should use it less

Will you ever let it go? I don't know  
Will I ever be first? I hope  
But I ain't just sitting around  
Can't wait for someone who's singing my words  
Damn I can't compete with a baby  
Is there any room left in your heart for me?

I love him, I love him, I love him  
Maybe I should call  
Maybe I should call  
I love him, I love him, I love him  
But I'll never call  
Maybe that's for love

After the last time we talked  
Oh I was a mess  
You had me stressed  
Oh no no no  
I wrote a text, I didn't send it  
Dialed your number, but said forget it  
Oh why would it change? She's still in the way  
But

I love him, I love him, I love him  
Maybe I should call  
Maybe I should call

I love him, I love him, I love him  
But I'll never call  
Maybe that's for love
