

# Sleep When We Die

K'naan

We kicking down the door if ever they don't let us in  
We don't give a f- yes we on that medicine  
I'm on that Marley Kush and I ain't talking cannabis  
I'm on that crazy bush yea something like the president

Where am I where am I don't have a clue  
I'm tripping on stumbling all over you  
Sorry just sick a belt I wasn't tryin' to Copperfield  
Somebody take the wheel I'm not drunk I'm on the thrill

We got our heads in the sky  
Love got me high  
Let's live tonight  
Sleep when we die  
Run from the sunlight  
Into the wild side  
Let's live tonight  
Sleep when we die  
We got our heads in the sky  
Love got me high  
Let's live tonight  
Sleep when we die

Found me with the crew those bandits and them outlaws  
We used to breaking rules and runnin from them cop cars  
You know them boys in blue they could be such a kill joy  
You see us on the news but we just tryin' to chill boy

Where am I where am I don't have a clue  
I'm tripping on stumbling all over you  
Sorry but girl you're bad ok I'm in the touch your a-  
Somebody take the wheel I'm not drunk I'm on the thrill
