You say you love me
But then you turn and walk away
All for love
Not even born yesterday
I see you on the streets
And you just pass me by
You think I got no feelings
Think I'm living high
But let me tell ya
I could be on the TV
I could be in them magazines
But it's never enough
When you felt the touch
Of an angel that's rocking your soul

When the rain comes down You're never around But when the sun comes up You always steal the fire And rain comes down On this side of town But people have no feelings They just run around

They just, they just We keep chasing dollars It's making me holler I just don't know I don't need a check I need some respect So people you know And the war And the babies crying And the car And the house And the rings And the things that don't mean nothing You could try to hate 'Cause if I am right your right down But I'm here to elevate I'll be floating in outer space now

When the rain comes down
Will you be around?
When the sun comes up
Will you always steal my fire?
And rain comes down
On this side of town
But people have no feelings
People
