

Perfect

K's Choice

I lost my head on a mountain top
I tried to fly and I couldn't stop
I felt the air blowing through my time with you
I found a heart in a solid rock
I tried to show you but you wouldn't stop
I should've known you then
I should've known you then

Try me out
Keep me if you like me now
There's always gonna be some doubt
It's never gonna be just perfect

I lost my head in a bidding war
I don't remember what I wanted you for
I felt the air blowing through my need for you
I looked ahead to someone new
I tried to move but I stumbled on you
I should've known you then
I should've known you then

Try me out
Keep me if you like me now
There's always gonna be some doubt
It's never gonna be just perfect

Take me out
Take me if you want me now
There's always gonna be some doubt
It's never gonna be just perfect

No
I don't want to be easy like this
No
No
No

Try me out
Keep me if you like me now
There's always gonna be some doubt
It's never gonna be just perfect

Take me out
And take me if you want me now
There's always gonna be some doubt
It's never gonna be just perfect
