

Don't Know Bout Love

K-Young

[x2:]

They just don't know bout love
When when they talk about us (3x)

[Verse 1:]

I've been everywhere around the world
But it don't seem the same if your not there with me
My fancy cars draw so much attention
But without these diamond rings I know you'll still care for me
My friends keep on tellin me I'm just wastin my energy
I don't know what's gotten into me I think they just don't know bout love
I've heard it all before?

[Chorus:]

They just dontknow bout love
When when they talk about us (3x)
They just dontknow bout love
They talk about us
They they talk about us (3x)
They just dontknow bout love

It's why everytime you come around me way you know just whatt to do
You know just what to say
You put me in my place puts a smile on my face
They just don't know bout love

[Verse 2:]

I've had my share of bad expensive girls but I never let em go from my bed t
o my herat
You took a different route made me wanna check you out
I doubt if you gon let this fall apart
My friends keep on tellin me I'm just wastin my energy
I don't know what's gotten into me I think they just don't know bout love
I've heard it all before?

[Chorus:]

They just don't know bout love
When when they talk about us (3x)
They just don't know about love
They talk about they they talk about us (3x)
They just don't know bout love

It's why everytime you come around me way you know just whatt to do
You know just what to say
You put me in my place puts a smile on my face
They just don't know bout love

Were the center of attention
No need to mention
Your the only sun that shines for me
Every dimension of you is worth the shit that I go through

They just don't know bout love
When when they talk about us (3x)
They just don't know bout love
They talk about they they talk about us (3x)
They just don't know bout love

It's why everytime you come around me way you know just what to do
You know just what to say
Put me in my place puts a smile on my face
They just don't know bout love
