Komplex on the track

For the clubs - yes it is!

I like it...

All the rainy days we've ever had,
We're just gonna leave them in the past,
I wanna move forward so I don't look back,
Girl you know I love you cause you've got it like that.

I don't wanna be without you no more,
I need you in my live, I told you before.
You feel the same way, so don't you ignore it,
Just forget about what people say!

You know - I know...
That we were meant to be...
And I love it baby,
I won't let go,
I know you were meant for me
Just forget about what people say

All the fussing all the fighting that we did before,
Only made me wiser, only made me strong,
I just wanna love ya, forgive me I was wrong!

Do you hear me baby...

I don't wanna be without you no more,
I need you in my live, I told you before.
You feel the same way, so don't you ignore it,
Just forget about what people say!

You know - I know...
That we were meant to be...
And I love it baby,
I won't let go,
I know you were meant for me

Ouououh
Your love so - it feels so...
Gooooood to me oohhh girl
Your love so - it feels so...
Gooooood to me and I don't want...

I don't wanna be without you no more,
I need you in my live, I told you before.
You feel the same way, so don't you ignore it,
Just forget about what people say!

You know - I know...
That we were meant to be...
And I love it baby,

I won't let go,
I know you were meant for me

You were meant for me...
