

# Summer Love

K-Young

[Chorus:]

It's alright, steal the spotlight.  
You could be my, be my summer love.  
Sunshine, this could be a fun ride.  
I wish I had a lil more time, with my summer love.

[Verse 1:]

It's nothin but love when the jukebox bumpin.  
My aunty two stepping and my cousins crunk,  
And I can smell the barbeque.  
Mama fix me a plate or two, cause right now I'm occupied.  
I think I've been hypnotized, a familiar face I like.  
Even in the shade, on a sunny day.  
Yo body is burnin up!  
You get me in the zone, like my favorite song.  
That's why I gotta turn you up!

[Chorus:]

It's alright, steal the spotlight.  
You could be my, be my summer love.  
Sunshine, this could be a fun ride.  
I wish I had a lil more time, with my summer love.

[Verse 2:]

I like how your friends all crowd around you.  
You're the girl from school all the guys always talking about.  
Maybe I'm just a flirt, tryna get you to go bizurk!  
My heart beating right through my shirt, I'm going all out just for her.  
A familiar face I like.  
Even in the shade, on a sunny day.  
Yo body is burnin up!  
You get me in the zone, like my favorite song.  
That's why I gotta turn you up!

[Chorus:]

It's alright, steal the spotlight.  
You could be my, be my summer love.  
Sunshine, this could be a fun ride.  
I wish I had a lil more time, with my summer love.

[Verse 3:]

It all started at a family function... Oooh oooh ohh.  
I was on my way off, and then you came...  
Like a rapture babe, like a picture that can't be captured baby.  
You're permanently branded in my mind, you're making this my favorite summer time.

[Chorus:]

It's alright, steal the spotlight.  
You could be my, be my summer love.  
Sunshine, this could be a fun ride.  
I wish I had a lil more time, with my summer love.
