

# Halfway to Memphis

Kacey Musgraves

I've made up my mind and what I'm gonna do  
Take it or leave it boy, I'm leavin' you  
You drove me outta' my mind and I'm halfway to Memphis

Instead of wastin' my time trying to make you feel good  
I'm gonna see what kinda' life is up in front of my hood  
You drove me outta my mind and I'm halfway to Memphis

[Chorus]

I'm halfway gone but I'm halfway saved  
A couple hundred miles from a brand new day  
Halfway there is a damn good start from a worn out mind  
To a healed-up heart  
Thank God I'm finally comin' to my senses  
You drove me outta my mind and I'm halfway to Memphis

I can drive away far and I can run pretty fast  
The plan for my future's puttin' you in my past  
You drove me outta my mind and I'm halfway to Memphis

So don't bother to call and don't bother to write  
Cuz' freedom's just ahead in the beam of my lights  
You drove me outta my mind and I'm halfway to Memphis

[Chorus]

I've made up my mind and what I'm gonna do  
You can take it or leave it boy, I'm leavin' you
