

# Keep It to Yourself

Kacey Musgraves

You turn on the light  
Then you turn it back off  
'Cause sleeping alone, yeah it ain't what you thought  
It's the drip of the sink  
It's the click of the clock  
And you're wondering if I'm sleeping

You heard from your friends  
That I'm doing okay  
And you're thinking, maybe you made a mistake  
And you want me to know  
But I don't wanna know  
How you're feeling

Keep it to yourself  
If you think that you still love me  
Put it on a shelf  
If you're looking for someone  
Make it someone else  
When you're drunk  
And it's late  
And you're missing me like hell  
Keep it to yourself  
Keep it to yourself

If you see me out and I'm standing alone  
Well it don't mean that I'm gonna need a ride home  
If you walk up to me like it ain't what it is  
Know that it ain't gonna end with a kiss

So keep it to yourself  
If you think that you still love me  
Put it on a shelf  
If you're looking for someone  
Make it someone else  
When you're drunk  
And it's late  
And you're missing me like hell  
Just keep it to yourself  
Yea keep it to yourself

Yea, when you're drunk  
And it's late  
And you're sad  
And you hate going home alone  
Cause you're missing me like hell  
Keep it to yourself  
Yea keep it to yourself

Yea keep it to yourself
