

## Like 'em Like That

Kaci Brown

Boys all these boys only boys  
Got nothing but boys on my mind  
Asian Hispanic Caucasian and Black  
So many I just can't decide  
They lick their lips blow me a kiss  
Whenever they see me walk by  
Some cute some naughty some sweet sexy bodies  
I just can't resist them cause I

I like I like I like 'em like that  
I like I like I like 'em like that  
I like I like I like 'em like that  
I like 'em good, but I love 'em bad

Love is it love when a boy gets that look in his eyes (Ooh La L  
a!)  
They never quit coming they've got their something  
They've got their je ne sais quoi  
Instant attraction sweet satisfaction  
Its almost too easy for me  
To get into trouble cause boys are like bubbles  
Their promises don't mean a thing, no no...

Give me a man that would give me the world  
No I could never be his girl  
But show me a man that has nothing I need  
And he'll mean the world to me...
