

# You Fool

Kaci Brown

It's in your eyes  
It's in your smile  
You couldn't hide it if you tried  
You can't deny  
It's on you mind  
And I won't lie to you  
I feel it too

Just close your eyes and kiss me you fool  
What are you waiting for  
It's just me and you  
This moment is yours  
You know what to do  
Just pull me close to you  
You fool

Without words  
Without a sound  
I can still hear you speak  
Don't be afraid  
There's no doubt  
There's something between us  
To believe in...  
Oh...

It's all in your hands  
So hold me while you can  
Don't let this go  
You fool
