

## False Friend

KadavriK

I don't wanna hear the things you say  
Lied to me, kicked me away  
Why dont you just leave me alone?

Forever we have thought  
That this would f'rever last  
But your false pride  
Just broke apart us fast.  
You do not seem to care  
What you have done to me  
Our friendship, you did dare  
To betray, don't you agree?

You agree? don't you see?  
Betray! skies turned grey!  
So grey

I blame you  
I hate you  
Look me in the eyes

Come on, die!

I bury you deep in my mind  
Somewhere very deep inside  
Noone may ever do again  
What you have done to me, false friend

I dont wanna hear the things you say  
Lied to me, kicked me away  
Why dont you just leave me alone?

Forever we have thought  
That this would f'rever last  
But your false pride  
Just broke apart us fast  
You do not seem to care  
What you have done to me  
Our friendship, you did dare  
To betray, don't you agree?  
I bury you deep in my mind  
Somewhere very deep inside  
No one may ever do again  
What you have done to me, false friend

I hate you  
I blame you  
Look me in the eyes

I dont wanna hear the things you say  
Lied to me, kicked me away  
Why dont you just leave me alone?

Forever we have thought
